PROFILE SUMMARY

Computer Science and Engineering undergraduate at ULAB and self-taught web developer who builds responsive, full-stack applications with Next.js, React and TypeScript. Brings professional experience in remote, deadline-driven work with confidential data, where accuracy and consistency were the standard. Currently strengthening backend skills with Node.js, Express and MongoDB. **Seeking internship and entry-level opportunities.**

PROJECTS

Bazar Dor *Live | GitHub*

Next.js, TypeScript, Tailwind CSS, Better Auth, MongoDB, Vercel

- Responsive web app that displays daily commodity market prices in Bangladesh (rice, lentils, oils, vegetables, fish, meat, eggs, spices).
- Lets users browse products by category and see daily price increases and decreases.
- Implemented secure authentication with email/password and Google and GitHub OAuth using Better Auth with a MongoDB adapter.

FitLog — Train With Intent. Log Every Set. *Live | GitHub*

Next.js (App Router), Tailwind CSS, DaisyUI, React Context, React Toastify

- Dark-themed gym companion: pick lifts from a workout library, add them to a daily plan and track weekly progress.
- Managed app state with React Hooks (useContext, useState) and fetched workout data from an external API.
- Added toast notifications and a clean, uncluttered interface for fast daily use.

JS Mini Projects *Live | GitHub*

HTML, CSS, JavaScript

- Collection of small apps, including a color generator and an expense tracker, built with vanilla JavaScript to practice DOM manipulation and core fundamentals.

WORK EXPERIENCE

Project Associate (Remote) | Quantanite Bangladesh *Nov 2024 – Jan 2026*

- Processed sensitive data for a US-based client while following strict confidentiality and privacy protocols.
- Maintained high accuracy on detailed tasks, consistently meeting quality benchmarks and daily targets using Google Sheets.
- Worked independently in a remote setting and kept clear communication with the team.
- Balanced the role with full-time university studies and met project deadlines.

EDUCATION

University of Liberal Arts Bangladesh (ULAB) *2025 – Expected 2028*
B.Sc. in Computer Science and Engineering

Daffodil International College *HSC, 2021*
Science

Dhanmondi Govt. Boys High School *SSC, 2019*
Science

TECHNICAL SKILLS

Frontend	React, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, DaisyUI
Backend & Auth	Better Auth, MongoDB; learning Node.js and Express
Languages	JavaScript, TypeScript, C
Tools	VS Code, Code::Blocks (for C), Git and GitHub, Vercel, Google Sheets, Microsoft Excel and Office
Concepts	Responsive design, REST APIs (consuming), OOP, MVC (basic), authentication and OAuth
Soft Skills	Attention to detail, self-discipline, quick learner, deadline management

LANGUAGES

Bangla (Native) • **English** (Intermediate)
